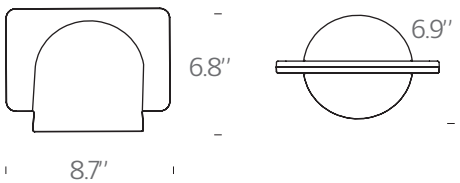
IGLOO

STUDIO KLASS, 2014

FontanaArte



Mounting: Suspension modular system
Environment: indoor (dry location)
Description: Modular, self-supporting lighting system that, thanks to a series of electromechanical connections with curves and spacers, allows for consecutive linking of up to two hundred units without the need for any additional power cable. The double shell in self-extinguishing plastic technopolymer allows for easy installation of the units, whether vertically or horizontally and in either case allows for the designer to choose uplighting or downlighting during installation. The LED technology works on direct mains voltage and can be regulated. Patent Pending.
Colours: RAL 7015 ● RAL9002 ●
Certifications: Intertek pending
Emergency: Without
Dimming: with remote light dimmer (not supplied)
Voltage (V): 120 V

CODE	SIZE	LIGHT SOURCE
4268..	8.7'' × 6.8'' × 6.9''	○ 10W LED at mains voltage (2700 K, CRI>80, 1250 lm)
