

cloudy

A unique lighting sculpture Cloudy is a large scale suspension lamp that consists of five spheres of opal PMMA, designed to be easily fixed to a supporting metal structure invisible from the outside.

The spherical elements contain the LED light sources and diffuse a soft and cozy light. A semi-transparent elastic fabric completely covers the composition, making the light diffusion uniform and giving the whole a unitary character.

Cloudy è una grande lampada a sospensione che si compone di cinque sfere in PMMA opalino, progettate per essere fissate agevolmente a una struttura metallica portante invisibile dall'esterno. Gli elementi sferici contengono le sorgenti luminose a LED e diffondono nello spazio una luce morbida e confortevole. Un tessuto elastico semitrasparente avvolge completamente la composizione, uniformando la diffusione luminosa e conferendo all'insieme un carattere unitario.
