## KUPETZ

By e27, Tim Brauns

### Description:

3D light system made with different light sources and unions, and its arrangement allows you to adjust the lighting to each space. This is a metal tubular system in matte black where you can combine four types of light sources: two opal white glass spheres (100 Glass and 150 Glass) and a spotlight with LED reflector that is available with different opening angles (Reflector) or a spotlight with opal diffuser (Diffuser). These spotlights and the base of the glass spheres come in three different finishes: black, copper and gold.

KUPETZ

● Black (matte)

● Copper (satin)

● Gold (satin)
