

Air

Adam Tihany

SO

SO SMALL

The AIR suspension light, conceived by Adam Tihany, combines a love of design with a solid ecological ethos. Featuring intricate laser cuts, a double emission light (in the large version) and a warm, inviting glow, you wouldn't guess that this light is made of GREEN CAST®. This is a 100% recycled and recyclable acrylic material produced with the utmost respect for primary resources, involving a significantly reduced amount of raw materials, and the re-use of what is considered waste.

With AIR, Contardi makes a pledge to become an even greener company in the future, with a promise to drastically cut the waste of materials and damage to the Earth. We want our lamps to have a great impact on the world of design, and the smallest possible environmental footprint.

Air is available in small and large versions.
