Technical and Product Description	Coordinates' is a lighting system consisting of horizontal and vertical strip lights that form illuminated grid-like structures of various complexities. The system can be easily adapted for different environments of varying scale. In addition to the customized solutions there are a collection of standard chandeliers of pared-down configurations that can be used in any setting. This design evolved from a commission for the feature lighting of the main dining area of the historic Four Seasons restaurant in New York City. The restaurant relocated and opened in 2018 with the interiors designed by São Paulo-based architect Isay Weinfeld
