## Bounce 169 Pendant

Design by: Monika Mulder

Designed by Monika Mulder in 2019, the Bounce 169 Pendant is a scalloped creation made of black metal and opal glass globes. Mulder says of the design, "With this lamp I hoped to break the tradition of pendants being equally large in all directions. Looking at all the different shapes of environments and tables, I saw the need for a lamp that is long and flat; a lamp that would work well above rectangular tables and counters." Hang this pendant high or low, or use it to divide a space and you will see how clever this designer was when she envisioned it.
