## Circle Pendant

The Circle pendant can be accused of having an infinite appeal but we don't think it would mind given it so confidently dangles its bulb! The simple graphic lines of its signature round shape were envisioned by designer Hannakaisa Pekkala, who created this minimalist design to break away from traditional chandeliers. The shadow the pendant throws even when it's unlit makes it a reflection of its own great taste even when the lights are switched off and the sun is streaming in through a window. This product debuted during Stockholm Design Week in 2017.
