

Ay Illuminate

Pebble Large Pendant

Design by: Ay Lin Heinen & Nelson Sepulveda

It's not unusual for small stones to be involved in changing the course of history, and the Pebble Large pendant by Ay Illuminate is the latest iteration of this. The simple pod-like design rewrites the rules when it comes to materials, as it may look like stone but it is made of recycled cartons. The coal-colored, gray or terracotta surface of the molded material has a subtle texture for added interest. We also offer the Pebble in small and medium pendants.

Ay Illuminate keeps true to their commitment to protect the environment by producing this fixture free of any chemicals, preserving the beauty of these natural materials.
