## Trapets Pendant

Design by: Note Design Studio

The Trapets pendant, designed by Note Design Studio, has a story to tell! In 1859, a young daredevil swung through the air on the world's first trapeze and before long the circus act took flight at the Cirque Napoleon in Paris. Named for its shade resting blithely over its own trapeze, the Trapets is in our ECCO Collection of Performance-Driven Office + Retail Lighting. ECCO, an acronym for [E]nergy-efficient, [C]ompliant; for [C]ommercial [O]rnatmentation, is a collection of light fixtures built to enhance the architectural attributes of commercial, office or retail settings.

### Ordering Matrix

#### Model

8200101 = White 55"

8200301 = White 67"
