

Ceiling Round

18 x 11.8

23.6 x 11.8

Sizes in (DxH)

All our round shades can be used with our CME ceiling mounted fitting and will have a 6cm gap between the shade and the ceiling.

We do however make these 2 sizes to be flush to the ceiling if height is critical.

Diffusers for ceiling mounted shades will have a small hole to aid installation.

CME

We designed our CME ceiling fitting to enable lampshades to be used in spaces with low ceiling heights. There is just a 6cm gap between the shade and the ceiling when used with our standard round shades. For those that prefer the shade flush with the ceiling we have 2 standard sizes for this, see page 55 for details.

Diffusers for shades used with this fitting come either in expanded white vinyl or clear prismatic acrylic and have a small central hole to aid installation. In addition, the 20cm glass globe diffuser can be used with this fitting.

Materials : Stainless Steel

Colour : White / Satin Nickel

Lightsource : E27 Max 15W LED (not included)

Recommended Bulb : LED bulbs 400 - 1000 lumen output and from 2700K

USA Spec available on request

Innermost recommends:

Pair with a diffuser to complete the shade for best effect.

Creation Baumann Polyester

Création Baumann have been weaving world-renowned fabrics in Switzerland since 1886. We made this selection from their Arik collection as we believe they make great contemporary lampshades that will complement any interior. The fabric has a two-tone micro-pattern which results in an interplay with up to three colour nuances depending on the angle of vision.

Innermost recommends:

Works best on large round & donut pendant and ceiling shapes.

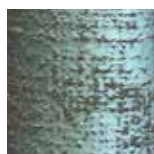

Colefax Indra

Viscose polyester acrylic

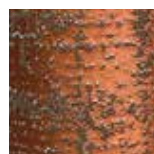

A lustrous textured fabric from the British fabric house Colefax & Fowler that uses a satin warp and strong woven textures to achieve the effect of hammered metal. Polished and sleek, we have it as standard in 3 burnished tones of Copper, Teal and Silver.
