

Rain,
Design by Andrea Tosetto

Model Rain

Rain falls from the ceiling like a drop of spring rain, with a linear movement that accentuates the curvaceous conical forms of its body. A metal suspension lamp with an LED light source projected toward a convex lens—simple and effective, elegant and extremely bright, to be used either independently or as a design composition.

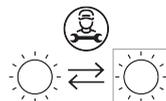

Rain	Light source	Structure: Metal	Decor: Metal	Code

Ecodesign Regulation

The light source contained in this device must only be replaced by the manufacturer or by the latter's assistance service or by equally specialised personnel.

Cluster suspension lamps must be installed on a canopy: find out more on lodes.com/en/canopies

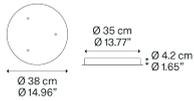

Round Cluster System

Model 3 Lights

Lodes's multiple round canopy (*Round Cluster System*) is a circular system for hanging suspension lights from the ceiling. It is a decorative element fitted with a variable but predefined number of holes and used to create more or less compact clusters of light fixtures based on the type of space and ceiling.
