

OMMA

LEAVES

OF LIGHT

Omma is an inventive lamp, like a tree with fluttering leaves full of light. In Eli Gutierrez's prepossessing design, it is almost possible to imagine the lamp's movable wood veneer, artfully edged with metal, flapping in a gentle breeze. Omma is available as a suspension lamp (with two, three and four leaves), a table lamp (with either one or two leaves), a floor lamp (with a single leaf), and a wall lamp (with a

single leaf). Individual leaves will rotate up to 180°, allowing the user to create a range of lighting moods. The Omma family of lights are available in several wood veneer colours: Natural White, Natural Beech, and Natural Cherry. The lamp's metal finishes (used to create the spine and to edge the wood veneer modules) include: Matt Black, Matt Ivory, and Gold.
