

### 2067/US/BI/BI city

design studiòvo, 2011

The large scale dome-like diffuser produces direct light, painted in **white lacquered metal**. The internal part of the lamp is available in **yellow** or **white**.

The lower part of the diffuser reveals the true inspiration of the designer. The laser cut acrylic diffuser resembles the map of two European destinations, Paris and Lucca.

The diffusers are available in two different colors. Additional city maps are available for a minimum quantity of 10 fixtures.
