Pendant lamp

SANTA & COLE

Conceived for average-size settings and areas in the home, GT5 and GT6 are two ribbon pendant shades that are capable of lending character to any venue by dint of merely being there.

Ever since the early 1990s, Santa & Cole has championed the use of ribbon shades to embellish all manner of light sources, exploring textiles and experimenting with colours and tones (they even enlisted the help of Raw Color studio). The GT5 was the first in the collection arising as an alternative to the use of continuous textile, methacrylate and cardboard shades. It was followed by the GT6 and, later on, the larger GT7, GT1000 and GT1500, designed for use in public venues owing to their large dimensions. This is a colourful family that is able to change its scale without losing its essence.
