

**PRODUCT DESCRIPTION**

Crossing planes of ribbed glass panels are asymmetrically arranged along a rod, framed in thin Matte Black iron. The tubular bulbs suspended from various heights are obscured by the glass texture, creating a shimmering show of ambient illumination. The simple circular and arcing shapes are stitched together in an interesting industrial glass texture structure that echoes the internal light patterns. The design, like bound glass and orb lighting pendants, manages to convey retro vibes in a modern, daring, and transitional form. Also available in complementary sconce with geometric appeal.
