

## FUTURA

Design Hangar Group

## FUTURA SP P

The Futura collection is perhaps one of the most iconic examples of the mastery with which Vistosi works glass. Designed by the Hangar Design group, these lamps are made of a single piece of blown glass whose particular workmanship, though, allows a double chromatic effect: transparent at the top, satin effect at the bottom. It is available in three exclusive colours combined with different finishes of the metal ring, in the following versions: suspension, ceiling, applique, table lamp and floor lamp. The following combinations of glass with metal ring are now available: white glass combined with matt black ring, smoky glass with brown ring, amber glass with painted brass ring. New transparent crystal glass with copper or matt black ring.
