

FLOS

Noctambule S3 Low Cylinder - Specification Sheet by Konstantin Grcic, 2019

Mounting	Suspension
Lamp (Bulb) Description	36W 3960lm CRI 90
Environment	Indoor - Dry Location
Dimming	0-10V

Technical and Product Description Noctambule, created by renowned designer Konstantin Grcic for FLOS, is an innovative lighting system that comes in an array of artful designs. A transparent hand-blown glass cylinder, surrounded on both top and bottom by discrete LED technology, is the foundation of this product. The fixtures built from these units form columns of light at varying heights that illuminate at the intersection between each module.

Configurable as a hanging or standing lamp, Noctambule features additional components that allow for numerous options. The cylindrical body is available at a low and high height, and a dome- or cone-shaped head can be selected if a more direct light source is desired. Dimming capabilities can be configured in the power supply unit within the ceiling rose, or as a pedal-operated panel on the power cord.

Inspiration behind the design:

Inspired by night owls, Noctambule by Konstantin Grcic features a transparent body that almost blends into a room when unlit, but makes its presence known when it illuminates at night.

Electrical

Voltage	100-240V
IP Rating	IP20

Physical

Cord Length (inches)	157,48"
Construction Material	Die-cast aluminum, Blown crystal
Weight	32.4 lbs

 F0276000
