TR7 Small Pendant

Design by: Tom Rossau

Getting twisted isn't usually a good idea but it's a supremely favorable set of circumstances for the TR7 Small pendant, whose agile strips of natural birch compress in the middle and flow out to luminous bubbles of light at each end. This elongated bauble of illumination also comes in a white Polypropylene version. The TR in the name given to these fixtures represents the initials of Danish designer Tom Rossau, who envisions and manufactures the beauties.
