

A-Tube Nano, *Design by* Studio Italia Design

### Model A-Tube Nano small

*A—Tube Nano* is a suspension light which interprets light in its simplest form by creating a thin luminous line in the living spaces. At the lower end of the lightweight aluminium structure, a transparent methacrylate diffuser houses an LED module whose light creates a soft, welcoming atmosphere. The three sizes and six statement finishes, allow to create clusters of evocative lighting.

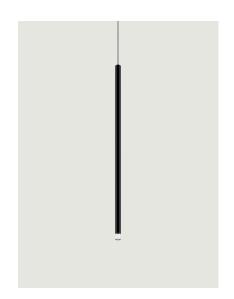

Cluster suspension lamps must be installed on a canopy: find out more on lodes.com/en/canopies

### LODES

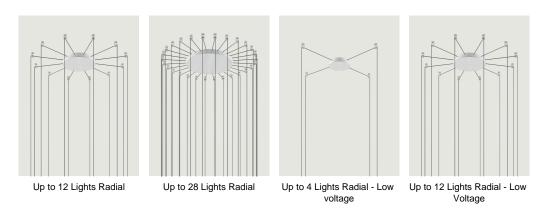

# Radial System *Model* Up to 4 Lights Radial

Lodes's radial system is an innovative structure which allows to manage different individual suspension cables separately starting from one canopy. This system is, therefore, useful for building multiple ceiling or wall compositions with an unusual shape or to increase the potential of a single wall or ceiling light point. It also allows to efficiently and elegantly illuminate irregular ceilings or with beams.

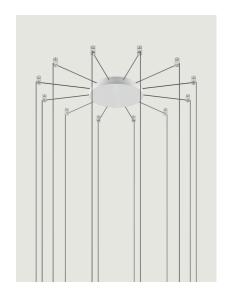

Matte White – 9010	R10L04 1000U
Matte Black – 9005	R10L04 2000U

### Options of Radial System

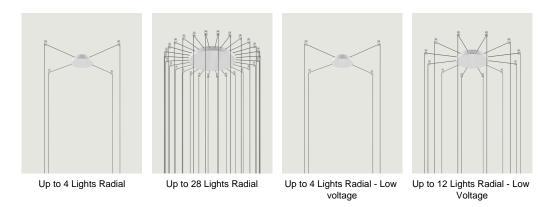

# Radial System *Model* Up to 12 Lights Radial

Lodes's radial system is an innovative structure which allows to manage different individual suspension cables separately starting from one canopy. This system is, therefore, useful for building multiple ceiling or wall compositions with an unusual shape or to increase the potential of a single wall or ceiling light point. It also allows to efficiently and elegantly illuminate irregular ceilings or with beams.

Up to 12 Lights Radial	Structure: Metal	Code
