A

Sexta 12

B

This is a lightweight, two-sided circle of shades, divided into six 60° segments (in the home version), and twelve 30° segments (in the larger version). The final arrangement is beautiful and sombre, generating generous well-nuanced light and reviving the old tradition of mediaeval iron luminaries with various bulbs as its resilient, distinguished predecessor is the Estadio lamp from the same designer.

General description:

Chrome-plated structure.
White translucent PVC lampshades.
Optional opal translucent methacrylate diffusers.
Chrome-plated metallic circular canopy.
