Design Romani Saccani Architetti Associati

DIADEMA SP A G

Luce in movimento. È la sensazione che invade l'ambiente quando si accende una Diadema. Il lavoro di Romani Saccani Architetti Associati, padri di questo progetto, si concentra dapprima sul singolo elemento della canna di vetro in cristallo per poi svilupparsi su un sistema composto: combinando canne di diverse dimensioni, la luce si riflette e trasmette la dinamicità desiderata. Numerose le varianti e le possibilità di personalizzazione. Disponibile nelle versioni sospensione, plafoniera, applique, lampada da tavolo e lampada da terra. Tonalità del vetro in cristallo. Parti metalliche in finitura bronzo satinato e cromo.
