20 Aura

Aura
by Joan Genbat

Its colours bring to mind the Mediterranean:
Sand, limestone cliffs and volcanic terrain.

The gentle addition of a rounded polymer concrete corners provides the origin of AURA.
A decorative LED wall light of simple beauty.

*Sus colores, nos recuerdan al mediterráneo,
a la arena, a paredes encaladas y tierra volcánica.*

*Si los sumamos al suave tacto de las esquinas
redondeadas de hormigón polímero, dan origen
a AURA. Un aplique decorativo de iluminación
LED y de bella sencillez.*

26 Dentō

Dentō
by Eloy Puig

The alchemy of the 4 elements: earth, water, fire and air, is present in the creative process of the Dentō collection, which is seven hours long. The traditional Raku-yaki (楽焼) technique brings close to us the Japanese tea ceremony.

La alquimia de los 4 elementos, tierra, agua, fuego y aire, está presente en las casi 7 horas del proceso creativo de la colección Dentō. Nos acerca a la ceremonia japonesa del té, mediante la técnica tradicional de cerámica Raku-yaki (楽焼).

Dentō 27

These delicate pendants are individually hand crafted. They are offered in three different diameters and shapes.

Individually, linear, or gathered together on a large circular canopy, at the same or different heights, they create a fresh, emotional and natural environment.

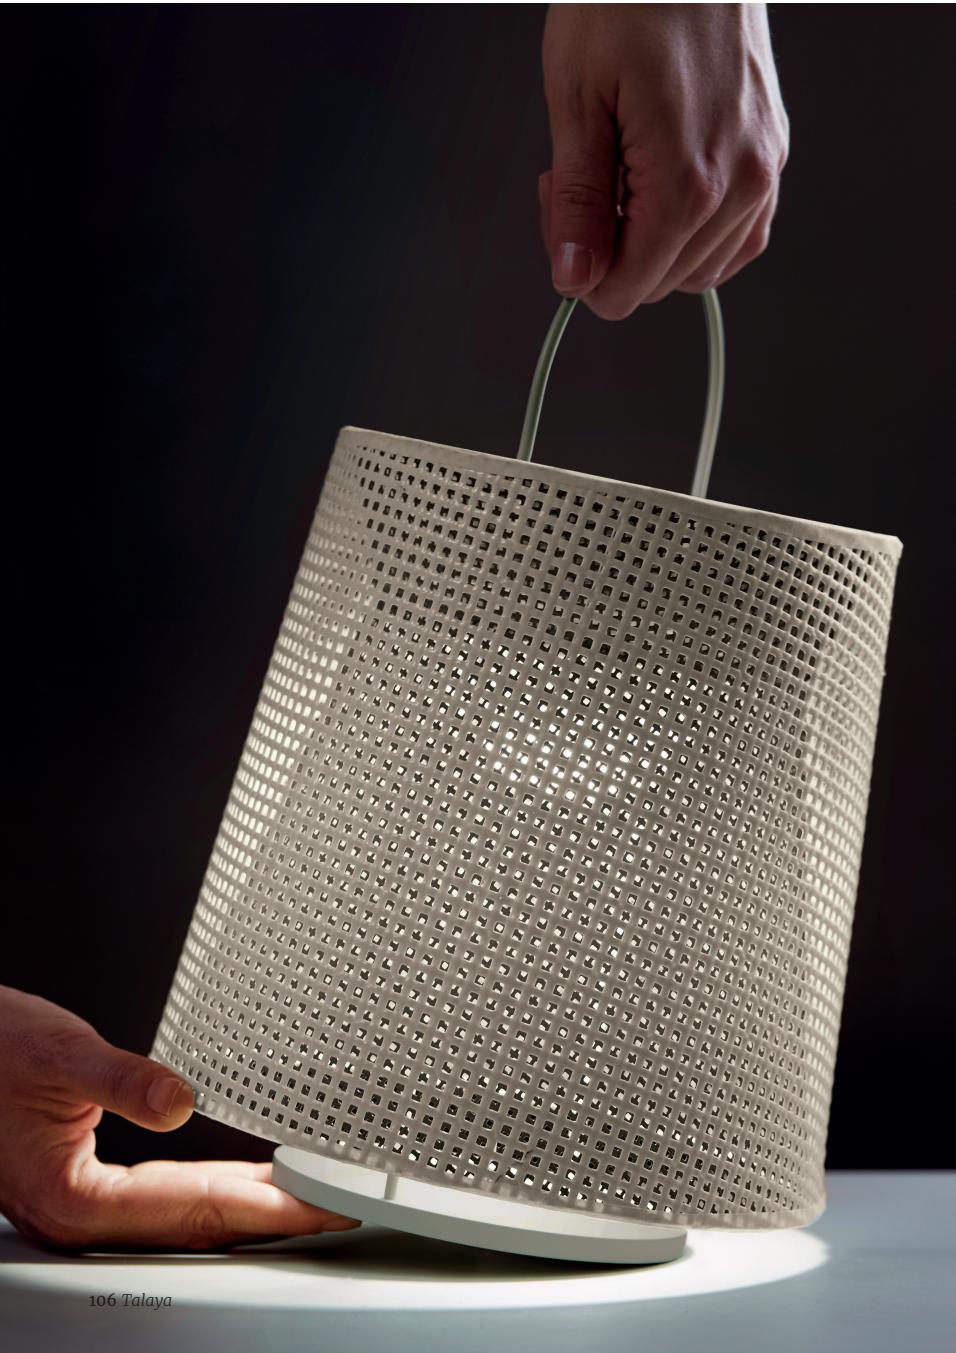

In her pottery workshop, Anna-Katharina conveys her passion for artisanal handcraft by making each piece a unique work of art.

Estas delicadas lámparas de suspensión, son fabricadas a mano, una a una, en tres diámetros y formas diferentes.

Colocadas en solitario, en línea o reunidas en una gran base circular, a diferente o idéntica altura, crean un ambiente fresco, emocional, natural.

En su taller de cerámica, Anna-Katharina, transmite su pasión por la artesanía haciendo de cada pieza una obra de arte única.

106 Talaya

Talaya

by Estudi Ribaudí

An outdoor line consisting of a floor lamp with a metal structure, a pendant and a portable, with pure minimalist lines.

This floor lamp, just under 79 inches high, is designed as a statement fixture for decks and gardens. The small portable version, with a waterproof battery, offers a more intimate light.

The shade is made of a perforated, flexible composite membrane, with UVA protection and waterproofing.

Línea exterior formada por lámpara de pie de estructura metálica, suspensión y portátil, con líneas puras y minimalistas.

El pie, de casi 79 pulgadas de altura, está pensado para erigirse con rotundidad en un sólarium o jardín. La portátil, es de pequeño formato y batería estanca, para una luz más intimista.

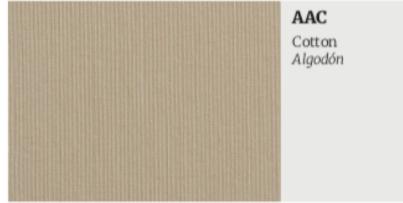

La pantalla está confeccionada de membrana composite flexible perforada, con protección UVA y resistente al agua.
